

Updates On the Ganaraska Forest Closure

FOR IMMEDIATE RELEASE, January 10, 2023 (Port Hope, ON) – As of May 1st, 2023, the GRCA anticipates the majority of Ganaraska Forest trails will be available for all recreational activities. Staff are also working with municipalities to reopen and continue using many existing access points for the same time period.

Currently, Central Forest does not have a solid base or sufficient snow to provide for winter activities, including snowshoeing or cross-country skiing. Despite repeated, damaging winter storms and mild temperatures, staff and contractors continue to clean-up from recent storms, as well as planned thinnings near trails. The projected January opening of Central Forest for winter activities is still our goal but weather-dependent.

Thank you for your continued support and patience, we look forward to getting back on the trails in 2023!
